COMPLETE
PACKAGING
SOLUTION

MISSION

Our mission is to design, manufacture and deliver a wide range of packaging products in a manner that meets and exceeds our customer's expectation and requirements. We are equipped with experienced resource and latest technology enabling us to provide our customers with the innovative & Solid packaging solutions.

VISION

At Heramb Enterprises our vision is to lead the way as an independent packaging solution provider to serve our customers with consistently meeting the expectations of the product quality, on time delivery and cost.

We offer opportunities to our team members at Heramb Enterprises to expand their existing skills & undergo personnel development, we believe in building strong workforce throughout the company to create great work ethic and contentment.

Wooden Box

Our organization holds vast expertise in manufacturing a qualitative array of Packaging Wooden Boxes. The offered array of packaging boxes is manufactured by our professional using high quality raw material, which is procured from the certified vendors of the market meeting the customer's demand.

Wooden Pallets

We are widely acclaimed for our experience in designing and manufacturing all kinds of pallets and crates according to the needs of our customers. We build pallets from selected high grade hard woods and soft wood board for strength and durability confirming to the international standards. This will provide maximum safety for your product during transport and storage.

Nail less Box

Provided boxes are precisely manufactured under the direction of our adroit professional using the best quality wood in line with the set standards of quality. The offered boxes are available in varied dimensions to suit the diverse needs of our customers. Moreover, we are offering these Collapsible Boxes at market leading prices to our customers.

Key Features:

- Durability
- Excellent strength
- Termite resistance
- Easy handling

Corrugated box

We are involved in the area of providing Plain Corrugated Box, Printed Corrugated Box and Corrugated Roll. In its manufacturing process we assure that only top quality material is used by our professionals along with modern machineries. Beside this, we check these on a variety of grounds before finally shipping them at the destination of our customers.

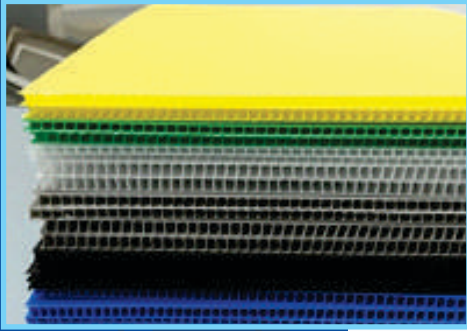

Cardboard Palletized Container

We provide the customized innovative packaging solution to meet the international standards. These containers are designed for packaging of heavy products which can be transported via, Road, Rail, Air and Sea.

Features:

- Easy Handling
- High Safety
- High Strength and durability
- Safer Operation

Polypropylene Sheets

Our Polypropylene (PP) sheets are quality assured as designed by making use of industrial optimum grade Polypropylene material. Further, effectively used in food processing, packaging, luggage industries and also in advertising. Our comprehensive collection is praised among the existing users. Additionally, all our Polypropylene Sheets are available in a variety of thickness, shapes and sizes.

Features:

- Moisture resistance
- Abrasion resistant
- Good resistance to electricity
- Light weight, easy to handle
- Aesthetic look
- Hygienic and odorless and antifungal
- Strong and durable, offer high strength to weight ratio
- Chemical resistant

Benefits:

- Extremely rigid and lightweight
- Excellent thermal insulation
- 100% recyclable
- Excellent compressive and impact strength

Various products are manufactured from Polypropylene Sheets based on the applications.

Plastic Reusable Pallet

Polypropylene Pallet

Material Handling Crates & trays

We offer wide range of material handling crates & trays in plastic & PP material. We provide the innovative designed crates & trays to fulfill the requirement of the customers.

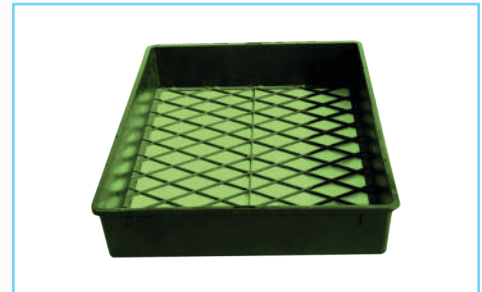

Plastic Tray

Plastic Tray with Separator

Customized PP Crate

Customized PP Tray

VCI (Volatile Corrosion Inhibitor)

We offer excellent quality VCI bags for our clients at industry leading prices. Volatile Corrosion Inhibitor paper or film is coated with chemicals that form a protective molecular layer on the surface of the metal. This protective layer insulates sensitive parts against moisture, salt, dirt, oxygen and other corrosion-causing substances. It offers excellent short-term rust protection when shipping steel, iron or cast-iron parts. Wrapping parts in VCI paper eliminates the need for an airtight package.

VCI products can be provided as per the customer application and specification.

VCI Shrink Film

VCI Stretch film/Bags

VCI Papers

Aluminum Foil

We are one of the well-distinguished companies in the market, engaged in supplying Standard Aluminum Sheets. These are widely used in food industries, construction industries and packaging industries. These are available to our valuable customer at market reasonable price.
